

Some CUPE members begin walk-outs, other members standby for further instructions

This morning, thousands of CUPE members began strike actions across the province.

FOR THOSE MEMBERS WALKING THE PICKET LINE: We see you. You are exercising your collective power and showing the government how valuable your labour is. Stay strong!

FOR THOSE MEMBERS NOT WALKING THE PICKET LINE: We know this is an anxious moment for all of you. Please work with your locals and communicators as we continue being strategic about our strike plans. Remember the mass membership meetings: we know exactly what we are doing. Please come out and support the picket lines while you are on standby.

Continue to encourage your families, your friends and allies to support the picket lines. Together, we will get Premier Higgs back to the table to negotiate a fair deal.

In solidarity,

The CUPE Centralized Bargaining Team
