

## Membership update Thursday, November 4th, 11:20am

In a few hours, a small delegation of leadership from the centralized bargaining team will be meeting with Premier Higgs to open discussions to try to get back to the bargaining table.

We have always worked hard to get a fairly bargained deal on wages, and we will continue to approach every meeting with government with openness, honesty and the membership's best interest at heart.

After the meeting, the delegation will come back to their headquarters to discuss the meeting with the rest of the centralized bargaining team, and an update will shortly follow.

In Solidarity,

*The CUPE Centralized Bargaining Team*

**BARGAINING FORWARD**
